Pop/Rock 11 MP3 Songs POP: Folkly Pop, ROCK: Surf Rock Details: Daize is a special young lady. She is a pro surfer, model, singer/songwriter and volunteer for her church. She has accomplished a lot in her short life so far and has big plans for the future. Her producer Cliff Brodsky has invested a lot of money, and time and creative energy in her as an artist. Cliff Brodsky, Daize's Producer says about her, "I think Daize is one of those kinds of people that you have to meet in person to get her vibe. She is like no other person that I have ever met. There is something really good about her and I can't explain exactly what that is. But it's there and it isn't going away. When I found her a year and a half ago, she had a little band that was all over the place and her demos were not very polished. I came in and totally went for it with her by investing my expertise with putting together new bands, charting out all her songs, being her music director, organizing her music and goals and systematically put together her entire musical life. We have made enormous progress as a team and both feel very good about the musical baby that we created together". One of the key musicians that played on the album and with us live was Bernard Yin, of the famed Migs and Brazil 2000. His energy and overall vibe was great and his guitar playing was the perfect flavor for Daize's music. # # # contact information: Cliff Brodsky Brodsky Music Productions studio: 323-874-4141 email: cliffbrodsky@earthlink.net cliffbrodsky.com
