On the same vein as Clutch, Pappa Roach and Godsmack, Deafness has found a pure form of Hard Rock that just slams. High energy rock with a soulful singing sound. 12 MP3 Songs ROCK: Hard Rock, ROCK: Modern Rock Details: Deafness, an all original modern rock band from Rochester, NY was formed in January 2003. With the line-up complete Deafness began rehearsing six days a week and continued to write material for their debut full length CD. Since the release of "Louder Than All" the band has completed a two week intensive CD release mini-tour of the Los Angeles/Hollywood area finishing up at the world famous Wiskey A Go-Go. Currently they are continuing to tour and promote their CD across the North East with plans to return to West Coast in early 2005. I am a part of a one, one band. It is four of the finest talents merged to flow in primitive pulsematic surges of rage and lust pouring like fiery needles in to my brain. Cold silence hits me and I realize for Deafness rehearsal is over. Murch lost much of what we all, now, cling to as reality, living only as a pounding rhythmic machine. Pure emotion-shaping righteousness flows from hand to guitar, enveloping and embodying our sound as Tony plays. Then I hear; the anger, the pain, the words that exist in my head and realize...it is my voice. I am, We are... Deafness
