This is that hot sh*t, that head banger boogie, that John Blaze sh*t. 16 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Hardcore Rap Details: Uh Ohhhhhhhh! He's back, with his sophomore release titled "It's Time". E-VOL has done it again giving you a major bang for your buck, without being signed to a major label. While currently in negotiations for a national distribution deal, he continues to rattle the underground circuit with ground shaking hits. The California native raised in Indianapolis continues to strive in a market that's known mostly for corn and basketball, not for Hip-Hop. This will soon change. With a nearly perfect combination of club banging hits, lyrical diversity, and platinum-status tracks, this album is sure to carry E-VOL into the majors where he rightfully belongs! So plug in your headphones, and enjoy the ride, and most of you will agree that it's surely his time to shine.
