"Not your Papaw's Bluegrass"-hot pickin, no overdubs, pure raw 4 piece talent with original songs that actually mean something. 14 MP3 Songs COUNTRY: Bluegrass, FOLK: Modern Folk Details: Hailing from Lower Alabama, Fat Man Squeeze has been wowing audiences with super-picking speedgrass since early 2003. The quartet has the distinguished honor of winning the 2003 Atmore Fiddler's Convention "Best Instrumental Band" category, as well as taking first place in Dobro and third in guitar. The popularity of their live shows and crowd reception of the band's original music prompted the boys to record their first album January, 2004. Recorded at the Ninth Ward Picking Parlor in New Orleans, LA, the album was engineered and produced by roots super talent Mike West(mikewest.net) who has recorded such greats as The Jeff and Vida Band, Mike Kerwin, Truckstop Honeymoon and many others. The idea behind the three day event was to capture the live feel of the band, and was recorded in that manner. Fat Man Squeeze has opened for greats such as the Larry Keel Experience and has enjoyed appearances of world class guest musicians such as Kenji Bunch of Citigrass (citigrass.com). Great things are on the horizon with a well received album and Americana Radio play.
