

Mp3 Guy David - Blueprint Demo

[DOWNLOAD HERE](#)

An impossible blend of Drum'n'Bass, Ambient, Techno and IDM. 10 MP3 Songs ELECTRONIC: Drum 'n Bass/Jungle, ELECTRONIC: Experimental Details: Hi there, I'm Guy David, musician and digital artist. I play an impossible blend of Drum'n'Bass, Ambient, Techno and IDM. My music has been described experimental, adventures and thought provoking. About this CD: The Blueprint Demo CD was printed in only 300 copies (not numbered). About 50 went to record companies and friends. The rest are being sold on-line. My history: I started writing music in 1982 at the age of 13. While my first attempts where very experimental, I was soon influenced by the electro and pop of the time, combining the electronic rock of people like Gary Numan with influences of alternative bands of the 80's like This Mortal Coil, Dead Can Dance and Minimal Compact. By the beginning of the 1990's I gradually stopped writing music, until, hearing the music of The Future Sound Of London, my interest in music was awakened again. Today, I lean more towards combining Drum'n'Bass with Ambient, Techno and Electro. Equipment used: I create my music using Reason and Recycle software from Propellerhead.
