

Mp3 Hybrid L - Disguises

[DOWNLOAD HERE](#)

Melodic hard rock with the energy and hooks to capture audiences whether live or on cd. 7 MP3 Songs

ROCK: Hard Rock, ROCK: Modern Rock Details: Once in a great while a group of guys come together from all walks of life, with different musical influences, and diverse personalities. While each being unique, together as one, they create something magical. Bubbling up from the core of bands, Hybrid L has exploded into the forefront of artists in the last 12 months. Jagermeister, Arko, and Level 27 clothing have taken notice and jumped onboard as sponsors for Hybrid L, representing them proudly as they grow throughout the country and the industry. Touring relentlessly all over the southeast from Kentucky to Florida and everywhere in between they have opened for artists such as Alter Bridge, Submersed, Drowning Pool, Silvertide and many more! They have tallied over 120 shows in the past 15 months all on their own. With two prior independent CD releases, their highly anticipated third CD, "Disguises", was released in June of 2005. The band is currently putting the finishing touches on a live DVD, recorded at the Hard Rock in Atlanta, which will include the music video for the single "Yours Truly" off of their third CD. The title track "Face Me Not" from their second CD will be featured on the soundtrack in an upcoming independent film, "Roulette", due out late 2005. "Here's a band with more potential than should be legal. I have watched this band from their beginning and they have yet to stop amazing me. From their intense and energetic live shows to the seriousness with which they approach song writing, this is a band that will do great things."-Greta, Q106FM "Offering catchy rock tunes executed consistently during their live shows with precision and high energy, they always deliver the goods to a constantly growing fan base wave that originated from a ripple in a small pond near Macon, GA."-Jagermeister Tour Magazine Spring 2005. "Earn each and every fan, every night, in every town, because they are what is important!" is the bands' golden rule. And because of that, they are on the path to success in the music industry.
