Halloween Music, mostly slow and apprehensive in a 17th-18th Century classical style influenced by Dark Shadows, Castlevania and Resident Evil 12 MP3 Songs ELECTRONIC: Virtual Orchestra, ELECTRONIC: Soundscapes Details: I've been writing the background music for our haunted house for the last 10 years. A couple years back I recieved a request to write dark circus themed music for another. That music seemed perfect for a CD so I went ahead and released 'Midnight Circus'. Much to my delight Knotts' Scary Farm added The Carniverous Clowns maze the very next year and used 3 tracks from that CD. Needless to say I got hooked and went on to write 'Clive Manor' with a gothic theme. I have begun work on a third CD that I hope to have out by March 2002,guess I better make that March 2003. I'd love to hear any remarks or suggestions. Thanks for stopping by, Michael Hedstrom
