

Mp3 Trevor Pope - The Atonement

[DOWNLOAD HERE](#)

This album will encourage, uplift, bring change, and hope into the life of (ANYONE) that is (WILLING) to listen. "With this album I just wanted to let the listener know that there is help out here for them, and that help name is JESUS CHRIST." Trevor Pope 15 MP3 Songs HIP HOP/RAP: Spiritual Rap, GOSPEL: Contemporary Gospel Details: Trevor was born on December 6, 1976 in Bridgeport, CT to June Pope and the Late Marshall Pettway as an only child. Being raised by his mother only, Trevor still maintained a close relationship with his father until his untimely death in 1998. From the time Trevor was born up until his teenage years, he was brought up in the way that he should go (Proverbs 22:6). Although he never forgot the things he was taught as a child, he began to become very headstrong and rebellious around the age of twelve. Trevor not realizing at the time that, that same rebellion would put him through a time of suffering in his years to come. In 1994, Trevor graduated from high school, however, he became more involved in the "streets". Already a gang member, he began to see the potential gain there was in being a full time hustler as opposed to just being a gang member. In that same year, Trevor was given a proposition from a friend that at the time would cause a dramatic change in his life. From that time forward Trevor was in and out of the prison system for the same situations that caused many of his friends to never see the outside of the prison walls again. Trevor's life soon took another dramatic change beginning in 1999. After being introduced to P.C.P., (Dust, Illy, Wet, Liquid etc) he slowly began to experience mental distress due to his daily use of the drug. In 2001, Trevor was incarcerated in a correctional facility in Bridgeport, CT. Due to his mental state, Trevor was shipped to a psychiatric ward at a different facility because he was unfit to remain in general population. Being placed in a tiny room, while being tormented in his mind by the drug, Trevor began to cry out to God for deliverance. While after being there for only 7 days, he was on his way out of that facility and back into the Bridgeport correctional

facility he first was shipped from, nevertheless back into general population. Trevor claims never to forget a woman working in the prison's A.P. room who said to him " I have never seen anyone who was admitted into this hospital and leave in such a short time". Trevor knew that very moment that it was nobody but God who brought him out of that small room with nothing but a bed, sink, and a toilet. From that day on, Trevor gave his life to the Lord, and his relationship with God began. After a year, one month, and 15 days Trevor was released back into the "world". Two weeks after his release, he found a church home at Faith Revival Center Church in Bridgeport Ct, where Pastor James Shannon is pastor and founder. Trevor has been there ever since the day he set foot in that church. In 2002, God called Trevor to start a ministry that uses rap as one of its ways to reach people young and old. He has ministered, witnessed, and testified on various street corners, churches, concerts, and at other different events. Trevor has recently released his first album called The Atonement, in which he hopes (Lord Willing) is not the last. Trevor has come a very long way from the same street life that easily entangles our youth today. God has moved mightily in his life, and helped him realize without Jesus, he is nothing. Trevor now sees Only What He Does For Christ Will Last. So in all he does and accomplishes he truly thanks God for it, for God deserves all the glory.(AMEN) Trevor would like to thank you for taking time out of your schedules to read his Bio/Testimony. May God Bless You and continue to keep you. Peace Be With You.
