

Drugs-of-abuse Testing

[DOWNLOAD HERE](#)

1;Foreword;8 2;Preface;11 3;Contents;12 4;Contributors;18 5;1 Specimens of Maternal Origin: Amniotic Fluid and Breast Milk;19 5.1;1. Introduction;19 5.2;2. Amniotic Fluid;24 5.3;3. Breast Milk;29 5.4;4. Interpretation;33 5.5;References;34 6;2 Drugs-of-Abuse in Meconium Specimens;37 6.1;1. Introduction;37 6.2;2. Composition of Meconium;39 6.3;3. Deposition of Drugs in the Fetus;39 6.4;4. Sample Preparation and Instrumental Testing Methodologies;40 6.5;5. Interpretation Issues;51 6.6;6. Advantages of Meconium Analysis;52 6.7;7. Disadvantages of Meconium Analysis;52 6.8;8. Summary;54 6.9;References;54 7;3 Drugs-of-Abuse in Nails;60 7.1;1. Introduction;60 7.2;2. Structure of Nails;61 7.3;3. Drug Incorporation;64 7.4;4. Drugs Detected;66 7.5;5. Sample Preparation and Analyses;77 7.6;6. Interpretation;78 7.7;7. Advantages and Disadvantages;79 7.8;References;80 8;4 Drug Testing in Hair;83 8.1;1. Introduction;84 8.2;2. Hair Composition;84 8.3;3. Drug Incorporation;85 8.4;4. Specimen Collection and Preparation;86 8.5;5. Advantages and Disadvantages;89 8.6;6. Conclusion;94 8.7;References;95 9;5 Drugs-of-Abuse Testing in Saliva or Oral Fluid;98 9.1;1. Introduction;98 9.2;2. Composition of Saliva;99 9.3;3. Sample Collection;100 9.4;4. Sample Preparation and Testing Procedures;102 9.5;5. Drugs Detected in Saliva/Oral Fluid;105 9.6;6. Interpretation Issues;107 9.7;7. Advantages and Disadvantages as a Drug Testing Matrix;108 9.8;8. Future Developments;109 9.9;References;110 10;5 The Detection of Drugs in Sweat;115 10.1;1. Introduction;115 10.2;2. Composition of the Skin;116 10.3;3. The Collection of Sweat;117 10.4;4. The Detection of Drugs in Sweat;120 10.5;5. Specimen Testing;121 10.6;6. Interpretation of Results;126 10.7;7. Advantages and Disadvantages;128 10.8;References;128 11;7 Drugs-of-Abuse Testing in Vitreous Humor;131 11.1;1. Structure of the Eye;131 11.2;2. Vitreous Humor Composition;132 11.3;3. Movement of Substances into and from Vitreous Humor;133 11.4;4. Specimen Collection;133 11.5;5. Drug Analysis in Vitreous Humor;134 11.6;6. Case Reports and Interpretation of Results;134 11.7;7. Advantages and Disadvantages;141 11.8;References;142 12;8 Drugs in Bone and Bone Marrow;145 12.1;1. Introduction;145 12.2;2. Physiology and Structure;145 12.3;3. Treatment of Bone and Bone Marrow for Analysis;146 12.4;4. Drug Detection;147 12.5;5. Skeletonized Remains;148 12.6;6. Teeth;149 12.7;7. Advantages and Disadvantages;149 12.8;References;150 13;9 Drugs-of-Abuse

in Liver;152 13.1;1. Introduction;152 13.2;2. The Liver;153 13.3;3. Kinetics of Drug Uptake and Distribution;154 13.4;4. Analysis of Drugs in the Liver;156 13.5;5. Interpretation;158 13.6;6. Advantages and Disadvantages;165 13.7;References;165 14;10 Drugs-of-Abuse Testing in Brain;170 14.1;1. Structure and Composition of the Human Brain;170 14.2;2. Kinetics of Drug Transfer;172 14.3;3. Sample Preparation Procedures and Instrument Testing Methodologies;174 14.4;4. Drugs Detected in Brain;178 14.5;5. Interpretational Issues;178 14.6;6. Advantages and Disadvantages of Brain as a Drug- Testing Matrix;186 14.7;References;189 15;Index;194 EAN/ISBN : 9781597453189 Publisher(s): Springer, Berlin, Humana Press Format: ePub/PDF Author(s): Jenkins, Amanda J. - Caplan, Yale H.
