He is a self-taught musician who has been playing for many years. All of his songs both written and performed by him and his band are songs that get into your head and won't go away. He writes and plays with feeling, so much so that you have the tendency to get caught up in each and every one. Bryon writes songs continually; his writing sees a song in everything that happens around him. He loves music!!!! He sings and plays effortlessly. His music career started a long time ago and continues to this day. Bryon has traveled extensively and has played with numerous bands and now at the age of "over 30" he has become well established in Georgia. His fans are many and his popularity is continually growing. Bryon is a quiet man with much talent that has now began to materialize. His voice is like no other and reflects the type of person he is. Bryon lives in Carrollton, Georgia and plays many clubs in the area, he has appeared at and won several "open mic" competitions, and is extensively talked about on the radio. David Pippin - Guitar David has always enjoyed music, but he focused more on creative writing, pool sharking, and visual arts. That all changed, one day when a friend asked David to listen to him play guitar. From that first distorted power chord, David knew he wanted to play guitar. The friend's Lotus guitar, Big Muff distortion pedal, and Peavey amp transformed a 15 year old boy struggling with his purpose in life, into a man obsessed with the guitar. He immediately got his own guitar and blazed through instructional books, teaching himself scales, chords, and songs. Over the next several years, he continued his training under the challenging and supportive tutelage of Molly Hatchet member of Rob Scaveto. David became so consumed by his new passion that

he began to ignore his other hobbies, skills, and interests even his friends! Today, David's passion for music still grows. Just as his musical tastes had expanded from rock to other styles of music, his guitar-playing style continues to draw upon many genres - blues, jazz, Latin, funk, and rock 'n' roll. David describes his unique style as a blend of "the aggressiveness of rock, the intelligence and intricacies of jazz, and the emotional passion of the blues." This explains why David is influenced by a variety of music rather than by individual artists. Simply put, if he hears something he likes, he draws ideas from it and incorporates it into his performance. What makes David unique? What separates him from the legions of other guitar players out there? "Passion for the music," he confidently replies. This passion is what makes him able to maturely play to the song; he can play with warm sensitivity or blazing aggressiveness, depending on what the song calls for. David is an accomplished musician whose education includes training at University of West Georgia's Music Department; a degree in Music from Atlanta Institute of Music; and professional training.
