Spiritual orchestral and world-influenced melodies. 11 MP3 Songs Classical New Age, Classical Orchestral Emancipation Songs Details: Living and on the job encircled by technology but being forever taken up with lifelike wild places, dramatic, moody atmospheres and especially with wild horses, I produce trance-like instrumental melodies that attempt to express what I feel about the wilderness and the creatures to whom it belongs. If you understand what its like to stand on a rocky tor, in the bleak moorland, and feel the exhilaration of the wind roaring past you, then I hope you'll like these works.
