Texas Country... Aka: Americana, Alt Country Singer/songwriter Texas style 10 MP3 Songs COUNTRY: Country Blues, COUNTRY: Country Folk Details: This CD is self-produced and recorded and was created for the purpose of being a songwriter demo. I believe that the greatest component in being a good songwriter is to put your music in front of people for feedback (good or bad) and so, here are my songs. The genre is what is called Texas Music locally here around Dallas/Ft. Worth. The strength of this recording is not in the production so much as in the strength of the songwriting. I have honed my craft in the honkytonks and bars of Central Texas. The songs are testimonials to a body with lots of hard miles on it and a life lived as an elaborate plot to find romance.
