Details: Winter is associated with hibernation but on a very snowy evening, brothers Tom Filardo (Asleep in the Sea, New Moderns) and Andre Filardo (Dredillah, A New January, Comasoft, Flutter and VNB) did the opposite. The goal was to write a mini three song album for the experimental purposes of fusing Toms folk songwriting with Andres heavily electronic driven production style. In the blender Tom threw in the main vocals and all guitars while Andre pureed and produced all Bass, Synth, Drums and backing vocals. Lyrically threw music is based on topic of uncertainty, but with less than three days to write, record, and mix the songs it became clear that this was just the beginning.
