Acoustic Guitar Instrumental Mood Music 15 MP3 Songs EASY LISTENING: Mood Music, CLASSICAL: New Age Details: David Kozischek has been playing guitar for over 30 years. David's love for music began at the young age of 15 when he taught himself to play guitar. His acoustic finger-picking style shows a passion for music that has grown throughout the years. Influenced at an early age by such artists as Jim Croce, James Taylor, Jimmy Page and other acoustic players of the 60s and 70s, this collection shows David's love for fingerstyle acoustic guitar. David has played many different venues locally as well as weddings and charity events. His performances include a vast variety of music from Garth Brooks, Heart, Jim Croce and everything in between, as well as his own original instrumentals. This CD is a collection of original instrumental guitar songs that have been recorded over the past few years. The first part of the CD, (East Road) are songs that were recorded with David playing all the instruments and some basic overdubbing. As you move to the second part of the CD (West Road) you will hear a different collection of songs with very few overdubs. Most of these songs were recorded in one take. The instruments that were used on the album were an Ovation guitar and a Martin MC16-GTE guitar. The music is soothing to the ear and is very relaxing. Enjoy!
