Related styles: NEW AGE: Progressive Electronic, ELECTRONIC: Electronica People who are interested in Mannheim Steamroller Trans-Siberian Orchestra should consider this download. Details: Welcome, Welcome, Welcome! AND....Happy Holidays from all the staff here at MadMouse Records! This is the first Christmas Episode of "Electronica from the Hills of the MidWest" called... A Musical Christmas Gift! It took a while for us to get our act together to get this one done. About four Christmas' to be exact! The problem was we would only "be in the mood" to compose Christmas music when it was....of course...Christmastime. But we had enough material almost finished that we decided in August to "get" in the mood and put on the finishing touches and get our first Christmas album out to everybody. Our family here at home was like.... "We don't care if you publish one or not! We want you to put together what you have on a CD and at least distribute it locally!" But we decided if we was going to do it at all, we would make it available to all that we could. And as in MadMouse Records tradition, we composed and crossed many genres pretty quick with our song selection, but we did our best to make it enjoyable for everyone! Stop by our home website to see the very special first run of this album the staff has put together! It will be available digital as well but you may want to pick up a physical copy of this album! They put a lot of love into this one! We want to welcome a very special new member to MadMouse Records......Carol Hines from North Yorkshire, England. She did a wonderful job for us doing the reading for the track "The Night It Was". We think her natural-born accent was absolutely perfect for the reading and we're thankful to have her on board for future projects! This album is great to give as a gift to anyone who loves holiday music, but don't forget to pick one up for yourself as well! Thank You for Stopping By! and have a Happy
