A true Lyricist and innovative producer, Christos embodies a style of music, which stimulates the senses to unparalleled levels and captures the attention of all within listening range. Born in the Bay Area of Northern California, Christos has been heavily influenced by the music of the bay Areas pioneering urban rap artists and producers. Christos had his first experience with hip hop as an assistant to his stepfather who was and still is one of the premier club D.J.s in the bay area. At the age of nine Christos started developing original Lyrics for raps that he would perform at school to entertain classmates. The energetic response that he would receive from classmates supplied Christos with the uncontrollable appetite to create songs that would allow him to experience the rush of making arms raise, heads nod and hearts race. As a teenager Christos relocated to Kansas City, Mo. As a result of the culture shock presented by this move, he delved deep into himself as an escape from an insecure existence as an outcast in his newly inherited environment. It is during this time that he spent countless hours listening to classic rhythm and blues and soul music as well as classic and contemporary rock. It is also during this time that Christos began to develop a deep appreciation for the arrangement of musical compositions. At the age of fourteen he took his first steps in the production of music by taking sections from classic rhythm and blues songs and repeatedly recording them to tape in an effort to create one continuous instrumental. Both the "influence of the bay Area and Kansas City play a critical role in the formulation of the music that Christos has come to create. When asked to describe his style of music he states" it's a combination of ghetto urban, militant suburban and uncontrollable urges, or simply, my life in the form of music". His electrical studio

performance is only matched by his highly energetic stage performance. The music that James Christos has brought to the world is guaranteed to allow him to leave his mark as one of the most Innovative and diverse, Lyricist, producers and all around entertainers ever.
