Electronic Noise 12 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Ambient Details: Nazi America is Satanic Mechanisms side project with fellow experimental electronic band Pixels of Death. It was created for the sole purpose to degrade pop-culture through the destruction of pop music...and quickly locked in on other pop culture themes such as government and police state mentalities. And other such products of this Civilization. Through Synthetic Compositions and replicated components. The picture of Society had been painted with sound. The first sequence is based on the rise of Tyranny or a tyrannical world government that utilizes the influence of pop-culture to effect change through hearing methods...they spread evils upon the soil of America. Invoking panic and fear in the citizens, as the tyrants quickly close their fist around the earth. Those who know the truth become scape goats and shown to the public as dangerous.
