computer-based lounge style dance, drum and bass, house anthem with a slight ethnic flare. 8 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Drum 'n Bass/Jungle Details: This kind of music is completely generated on a computer and mastered as AIFF files. If you do not mind listening to loop-based tracks, you'll enjoy letting yourself drift into the atmosphere and mood of each song and detecting the nuances and texture in the "takes" of the instruments. You can create your own storyline and emotional experience listening to your favorite song. Since those are all digital files, I was not restricted by the cd capacity or limitations when creating this album. However, I kept that in mind for those who like to burn personal copies, and that's why I could only fit 8 songs. One song will debut on the next album while I'll be perfecting others still in the pipeline. I'll try to sculpt into those a new state of mind and probably a new tech feel. Thank you for trying this style.
