WHAT PEOPLE ARE SAYING ABOUT IT "I love your CD 'Samba Snap.' I use it all the time. I am a

special ed teacher who specializes in movement education for pre-school children. Many of my students

who have little response to anything respond to the rhythm or the lyrics. Also my grandson (3 years) asks

for your CD the minute he gets in the car. He sings along with every song. His favorite is 'No More

Chocolate!!'" Penny Baker, Movement Education Specialist Melrose Elementary School Los Angeles,

California "I put Adam (10 months old) in his crib and he is so entertained by your CD, I can clean his

room. And my husband and I dance around to it too!" Adriana Vlastic, Parent Participant in Rita's

parent-child music classes "I play your songs every day for my 5 and 6 year old students. We sing and

dance along. The other teachers have seen how much fun we're having and they all want to buy a copy

too!" Sharon Maddin, Kindergarten Teacher First Impressions School West Bloomfield, Michigan

"...excellent quality recording." James Van Valkenburg, Violist Detroit Symphony Orchestra "That's a

great album! I'm recommending 'Samba Snap' to my internet group of pre-school teachers all across the

USA and in Canada. I especially like the songs where you're telling us what motions to do. Very age

appropriate. We really appreciate it!" Barbara DeWitt, Pre-School Director Redford, Michigan "The kids at Storytime love 'Samba Snap.' I would like to buy an additional copy for the library to circulate." Joy Wong, Youth Librarian Blair Memorial Library Clawson, Michigan "Whenever I put my daughter, Briana, in her car seat, she began to chant: 'Rita, Rita, Rita', until your CD started to play. One year later, she still asks to hear it, not just in my car, but in grandma's car too!" Lianne Shaw, Parent "SAMBA SNAP" - WHAT IS IT? This album is for children ages birth to 7, and for parents, teachers, librarians, and care givers who work with young children. It has 15 original songs and 4 old favorites featuring a variety of musical styles including folk songs, chants, and rock. Words from foreign languages are easy to learn in "Counting" (Italian, Hindi, Japanese, Swahili) and "Hula from Hawaii." Many songs have the directions for creative movement in the lyrics. Some songs have spoken parts so people who can't carry a tune will be able to participate too. There are a lot of "call and response" (repeating) parts, so the material can be used immediately without memorization or practice! LYRICS ARE ENCLOSED. A satisfying feeling is created by opening and closing with the song, "Let's Rock." The first time you hear the song it has "hello" verses. At the end, it has "goodbye" verses. Puppet Candy Cow adds to the fun by popping up here and there, asking to help, singing, and being silly. When the album ends, she asks, "Can we play Side One Again?" And children are asking to hear it over and over and over again! This CD represents more than 5 years of work. For 4 years I wrote songs and tested them at home day cares, parent/child music classes, birthday parties, schools, and libraries. Then it took about a year and a half to record. Fortunately I got to work with Bill McKinney. His engineering skills, singing, creativity, silly voice on track 4, and musicianship (lead guitar, bass, drums) are a huge part of this CD's success. I can never thank Bill enough and I am still amazed each time I listen to his voice and musical talent. Phil Turkington adds incredible piano playing on tracks 1, 12, and 23. And I am glad that my wonderful son Andrew is a part of this project too. So, from all the gang: Bill McKinney, Phil Turkington, Andrew Kirsch, Candy Cow and me... ENJOY THIS CD. WE KNOW YOU'LL HAVE A BALL! Background: Rita's song 'No More Chocolate' is included on the audio cassette "If We Dare to Care," a collection of Michigan's favorite children's recording artists to benefit the prevention of child abuse, with narration by Isiah Thomas. She attended the University of Michigan in Ann Arbor and graduated from Wayne State University.
