Pain Town (pc Game)

[DOWNLOAD HERE](#)

PAINTOWN (PC GAME) Paintown is an fighting game in the same genre as Streets of Rage and Teenage Mutant Ninja Turtles. It has both an Adventure mode (playable also networked) and a Versus mode. It can be played in multiplayer or against a computer enemy. It comes with a character editor and level editor. New characters, stages and enemies can be created easily, editing some simple scripts. This makes the game extensively customizable, in the same spirit of games like Mugen, allowing for many characters to be created. System Requirements: Windows 98, 2000, ME, NT, XP, Vista & 7
