Date Stamp

[DOWNLOAD HERE](#)

Easy to use script! Simply enter the script to your server and then enter a single line of code on each web page that you would like to display the current Day, month, and year. Use it to keep your web pages "current" or turn into a deadline script (offer expires at midnight on...). SUPER BONUS: Order now and receive MASTER Resell Rights so you can sell Date Stamp and keep 100 $$$ of the profits! You'll even get a copy of this sales page which you can easily customize!
