Then he was called G.Live G. he was featured on a compilation Album called "Taking no Shorts" under the group "Too Brown" Anubys and his old group enjoyed some mild success and toured locally within the tri state area ;Philadelphia,PA, New Jersey, and Delaware. Anubys performed alot after that in various highschoools and junior high schools in the Philadelphia area all that year of 1990-1991. He later started reading and studying religious and philosophical literature. And that begin the birthing process of what would soon become Anubys. Self taught but well learned Anubys held classes out of his own home on various subjects regarding philosophy, and ancient cultures. But during this 7 year period Anubys stopped pursuing his rap career to totally dedicated himself to his studies. During that time though he stopped rapping proffessionally he never stopped writing and rapping amongst colleagues

of his. They were very impressed!! It was with a cultural and historical twist Thus Anubis was born. the fever to want to rap again had re emerged stronger then ever. The inspiration for the spelling change of the name was to maintiain more of a mystery behind the idea, not always rapping about cultue or serious topics. It left it open to still be hardcore, gangster, club, street, hip hop, or conscious. The lesson he overall learned "That it's all about moods and relating to people" to learn more and hear more please visit us at anubys.com
