Supernova "Just a good, old-fashioned Happy Love Song. It's a 'So glad you're in my life' song with a little astrological mysticism thrown in for good measure. Can't help it. I'm a Capricorn." Say Goodbye "You did me wrong and now you have the @\$#! nerve to come back and ask for a second chance? You MUST be joking. Buh-bye!" My First Child "Written by Nil Lara, this song expresses the pure and unconditional love that a parent feels for their unborn child in the womb." My Body's Keeper "I'm hot for you, but I have a man. You have a woman too, so why are we here? If we give in to this, an affair could be exciting, but we'll get caught eventually, and I know it." Left Side Blues "I'm old enough to know better about being your Other Woman. I'm here, but not for much longer..." Long Distance Love "The closer I get to you, the farther you run from me. But when I move to leave, there you are. This won't ever change will it?" This song was originally performed by Lowell George and Little Feat. Remind Me to Forget "Hello, my old friend, my old flame, my old love. I didn't expect those old feelings to resurface after so long. But you really hurt me back there. I'll always love you, but I'll never forget the pain you caused." Pullin' Me Back "Addictions, addictions, addictions...to people, substances, and other bad habits. They control our life until we find the strength to walk away...for good." Fallin' "I think I'm getting a little sweet on you, but I'm not ready to tell you. Besides, I'm not sure that you're over your ex, and I'm a bit allergic to drama. But darn, you're really cute!" Lucy and Ethel "I'd be lost without my girls. This is a tribute to best girlfriends

everywhere."
