But you can still download the album at places like iTunes and Napster. Thanks for making this a successful release guys, the second album is on the way and due out later this year. Damn! These guys are f*#in' amazing! They remind me of one of my favorite bands from New York that's BILE! This is the debut CD release of this Industrial Metal act out of Ct. The music has a ton of energy pouring out everywhere. I was hooked right from the start. They have a Metal sound, but it is covered with tons of Industrial music. I loved the adrenaline that drives through all their songs. The music is extremely tight fast, with tons of Industrial grooves, beats breakdowns. These guys are just down right amazing! The vocals are done in a mid ranged Industrial style a low end Death growl. This is one of the best new bands I've heard in a long time. Fans of BILE HELL ON EARTH will love this band!!! I know I did!!! Review from Beowolf Productions beowolfproductions.com/MusicReviewsJun04.html Check out the remixes at cdbaby.com/cd/cods2
