Alternative folk/rock. When STP and Pearl Jam had acoustic songs in between the grind, that's the whole album. 12 MP3 Songs ROCK: Folk Rock, FOLK: Power-folk Details: close your eyes and enjoy the celestial ride! acoustic adventures that take you on a cerebral journey through the melancholy moments of ones self and ones soul. subconsciously intertwined to fit the well weathered and well traveled. surprisingly familiar and optimistic. not particularly happy, not blatantly sad. reflective. with hints of zen and psychedelia. an evolved folk/rock twist to the "love" song. a musical smorgasbord with mandolin, fiddle, sax and killer guitar solos; transporting you into the realm of evenings spent in the baja, nights in the village, french quarter sunrises before slumber.....conquering the high plains and deserts of a great land. for it's the contacts and dealings with each other, and the oceans, mountains and cities surrounding those eternal bonds, that we are truly taught, educated and made free. influenced by our many births, it is music and only music that is the ultimate language which has the ability to take us back to "that" moment in time forever and beyond. i've tapped into the very fiber that drives us all. united by love, lust, want, need, fear, loss, power and every other emotion that is primal to our existence as humans. a must have for those who have questioned, asked, looked, listened and felt.....and those who continue to question, ask, look, listen and feel.
