sophisticated pop by a singer-songwriter who can't resist experimenting with sounds and studio options. 10 MP3 Songs POP: Quirky, ELECTRONIC: Pop Crossover Details: Sound analyst raphi and song specialist dave are on a mission to discover the secrets of the musical spheres. Join them as they research the codes of love and harmony and discover a cure for musical superficiality. It's a simple collection of love songs wwith sophisticated packaging. The artwork has this cool collection of photos with an abtacted idea from each song. We worked with this idea that a song contains a coded version of the original experience that you can relive by listening. Kind of obvious but ponced up to appear really clever. The flash site (link below) allows you to play along to the album with some of the sounds used. davidmtaylor.com/rnd/
