Sound like Frank Sinatra a little like Elvis Presley and the silver fox... 14 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Blues Details: Dr. Thomas Edward Butt is a man of many talents, a gracious host who never met a stranger, and a multi-talented musician, singer, and song-writer who always has time to party and have a good time. He is always into something - either buying property, building houses, or restoring buildings he already owns. Tom is unique to the Rockabilly Family because his musical ability in singing, song writing and playing the trumpet is all natural, with very little formal training. His first priority during his professional career, was dentistry, and his music was his outlet, his "golf", so to speak. But his talent has given him the most fun in his life. He has recorded numerous songs in Nashville with renowned studio musicians, and plans on recording many more.
