

Mp3 Erv Lewis - The Road Home

[DOWNLOAD HERE](#)

Contemporary Christian material, most of it original. There are guitar and keyboard leads, folk/folk rock rhythms with some MOR cuts, and full orchestration. 20 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Folk Details: Ever since his years as a folksinger, Erv's original songs have been described variously as "song stories", "word pictures", etc. Judy Herring Leigh, internationally known Christian singer/songwriter and New Music recording artist, described Erv's original material as ".....extraordinarily descriptive of what people really feel as they meet the challenges of every day life", and she describes Erv as having ".....a gift for painting these pictures in the hearts and minds of those who listen to his music." Some of the songs on this CD reflect a heavy folk/folk rock influence. Others are more middle-of-the-road. Erv and some of the best studio musicians in the business produced the rhythm tracks. Then, tasteful orchestration and background vocals were added. All together, they are a pleasing mix of original and traditional material.
