A project primarily using acoustic guitar with basic chords to express some thoughts and feelings regarding family and friends. 8 MP3 Songs FOLK: Gentle, EASY LISTENING: Mood Music Show all album songs: family and friends Songs Details: Family and friends is a collection of songs brought to life with Daves amazing voice and guitar playing. The dream would be that when people listen to these songs they walk away relating to the subject matter of each song. The first song is about trying to find a balance in ones life. Second song how a man sees his women. Third song is when things dont go the way you have them planned out. Fourth song how a father feels about his daughter. Fifth song is a thank you song. Sixth song is how a brother felt on his sisters last birthday who died of cancer a few years ago. Seventh song is a Father describing his son and the eighth song is the same song with an electric rock feel to it. As the writer of all the songs I believe they all have a meaning. I would love to here your comments as the listening public. I ask only one thing, that you listen to the entire song and be completely honest with me about what you really think of the song or songs. Thank you sincerely , Scott Steven Walters
