

Mp3 Igod - Fire In The Hole

Dark ambient textures and electronic beats, chalked with menacing hypnotic drones and odd noises. 8 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Techno Details: Fire In The Hole is iGod's second solo album. It's darker than the first and he seems to have forgone the house underpinnings in favor of lighter beats. The result is that instead of having drone tracks OR dance tracks as on Fuckscapes (2003), the beats flow in and out of the drones as needed. The mostly-analog track "Malice Aforeskin" features the bowed instrumentation of Phil Dole, iGod's collaborator on In Search Of The Brown Note (2004) and stunning hypnotic percussion and is easily one of the disc's highlights.
