Eclectic Rock - She can rock like a folk punk PJ Harvey and downshift with the oblique nimble sensuality of Suzanne Vega. Her songs are missions from the frontlines of life, bell clear with unrelenting personal honesty. 5 MP3 Songs ROCK: Modern Rock, ROCK: Acoustic Details: An icon of the Boston scene, rocker and poet Jennifer Matthews enthralls with intimacy, nuance and vocal finesse. She is an avant-garde balladeer with a Lower East Side sensibility. Matthews' bewitching charm and passionate songwriting bring a new meaning to the Eclectic Rock genre. In a recent review, Boston Globe music writer Steve Morse writes, "At times as individual as PJ Harvey and Kate Bush, at times as hippie-sensual as Neil Young and Joan Osborne, Matthews covers a lot of ground. She's an appealing chameleon." "Jennifer Matthews...She's got incredible control of her voice as she wanes through octaves with impressive ability." - (Doug Sloan, Metronome) "I can sense success on a larger scale awaiting this artist in the coming year!" - (The MusicPaper) Don't miss this amazing EP!
