Details: This second Mustfuzz release from the Swiss label, Inzec, buzzes with precise and delicately crafted grooves and micro rhythms. Its minimalistic elegance shines through and evokes a Zen-like quality. Shimmering, surreal textures and haunting melodies arise over the sparse haiku-like vocals.

Mustfuzz has taken hypermodern steps into the future, like its contemporaries Royksopp or Mouse On Mars. Mustfuzz does not play Pop music; its more like they play with Pop music in their own remarkable way. Having engineered most of their innovative sounds, Mustfuzz has brilliantly created a brave new sonic landscape, a musical mosaic. Why do I have the feeling that this album would sound great in a Prius hybrid?!
