Reviews "The biggest band to play plena, which is a folkloric music out of Puerto Rico, PLENA LIBRE know the tradition but aren't afraid to draw upon stuff from outside the genre to keep it fresh. . The Village Voice, April, 2006 Where would the contemporary bomba and plena be without Gary Nuez (of Plena Libre) 5 Stars Review -- The New York Post, November 2005 the CD ROCKS!. Its the best theyve ever done, in fact I would rate it in my top 10 for the year. . . KECG, El Cerrito, CA It has been more than a decade since Gary Nuez baptized the group with the name plena libre, aiming to break musical and cultural boundaries. Their new CD and tour dates are now more borders crossed for this extraordinary group. World Music Central worldmusiccentral.org. . . . Evolucion is a MUST.
