Imagine the intimacy of Beatles pop, the charismatic jangles of Tom Petty, the textures of power pop and the a dash of mellow dreaminess stirred together with fire. 13 MP3 Songs POP: Power Pop, POP: Beatles-pop Details: CAR CAUGHT FIRE is the Bears first release in 14 years. Recorded over a three year period at Adrian Belew's home studio, the disc reflects the growth of a wonderfully unique style - what critic Robert Chrisgau refers to as, "music worthy of a new category." Using the freedom afforded by being "fabulous musicians not concerned with impressing anyone with how cool they are," The Bears concentrate solely on creating great recordings of great songs, skillfully doing whatever it takes to distill the essence of their music down to elegantly simple modern rock gems. Adrian Belew's experience as a platinum award-winning producer is brilliantly displayed with the transparent production heard on CAR CAUGHT FIRE. Several of it's radio worthy tracks have already received consistent North American airplay and network television exposure.
