Discover How YOU Can Take Advantage of the Video Boom By Creating Your Own High Quality Video Products. . . Dear Soon-to-be Video Product Creator, Now YOU can finally learn all the ins and outs of

Creating Your Own Video Product...and its broken down into simple terms ANYONE can understand! Are you ready to learn what marketing experts have known for quite awhile about creating your own video products? Its simple with this Introductory Step-By-Step Guide. 2 Of The Main Benefits to Video Products

1) Its much easier to SHOW someone how to do something, as opposed to just telling them. Teaching people to do something with written word can be difficult at best. Some wont understand what you are trying to explain... they may be confused with certain terms or descriptions. With video, you can SHOW them what you are talking about to remove all doubt. There is no guessing that they are doing something correctly, theyll know for a fact! 2) Higher perceived value of all your products. Writing a manual or guide is great, but to be honest, videos are EXPECTED to cost more. You are adding a personal touch, and spending your time bonding with your customer (or at least, thats how it seems). Because of this, the value of your product increases. You can earn more profit from the exact same amount of work! Here is a taste of what you will learn inside Doug Champignys Intro To Creating Your Own Videos... * What tools are you going to need to create your video product? In this chapter, you will see the advantages and disadvantages of certain tools... and more importantly, what you MUST have in order to create a great video product. * Do YOU know how to edit your video?
