This Duplicate Content Checker Software Can Help Prevent You From Being Penalized By The Search Engines If you are a bum marketer or you use articles as one of your online marketing efforts, then the issue of duplicated content should be of huge concern to you. As you should know, search engines try to prevent duplicate content results from showing up in their result pages because they want to ensure that they do not show the same content repeatedly for the same search query. As such, you will need to make sure that your content is unique. However, it is really time-consuming having to check if the content that you have at hand, whether is it outsourced, written by ghost writers or yourself, duplicates another persons. Now if you're looking for a quick and easy way to accurately measure and target article similarity between your original articles and their rewrites, to avoid duplicate content, look no further as we have GOOD NEWS for you! Equi Buzz offers the easiest and fastest way scan for duplicated content between two articles. This will help you to easily identify the percentage of duplicated content found and reveal to you exactly which are the areas which are duplicated! Furthermore, you get to scan for the keyword density of each and every single article, helping you greatly in your SEO efforts. What This Amazing Software Does: Compares two articles side by side and reveal to you the percentage of duplicated content between the two articles Shows you exactly which are the parts that are duplicated using different color highlighting. Saves you time and effort when rewriting articles due to the easy comparison. Displays the keyword density of each article for the keyword you've chosen. Boost your Search Engine Optimization efforts greatly Helps to check on your freelance writers work and ensure all your content are not duplicated and will never be penalized by the search engines
