Video marketing is the most powerful marketing tactic you can use to promote your website online. People from all around the world watch videos every day on Youtube, Metacafe, Dailymotion, and all the rest... There are plenty of them. I bet you know, that video marketing can skyrocket your online business almost immediately. Whether it's your blog, your website, or even an affiliate offer you're promoting. Sadly... You have no idea how to create videos that actually sell. And fact is, if your video doesn't sell itself... You'll always keep failing with your video marketing. Don't worry though... In just a few short moments from now, you're going to discover a secret weapon that I've been using for a very long time now...one that will shock you... But before I let you know more about this 'underground tool' let's talk about YOU for a moment. You're frustrated aren't you? Here Are Just Some Of The Software Features:

Add Your URLs Into The Videos - With one simple click you can add any URL to the video you're creating. Be it an affiliate link, or your website link; as long as it's a URL, you can add it with ease. check

Create An Unlimited Number Of Slides - Using its easy interface, you'll be able to create as many slides as you want. Feel free to create one slide, or even one hundred. check

Add Backgrounds Or Images

Easily - Images make your video look A WHOLE LOT better, that's for sure. Not to talk about the higher conversions that you can get when you use images in your video. People like images, and you can add as many as you want, in every part of the video. check Add background music - This is powerful. Music is proven to change moods. Play a symphony and your viewer will become relaxed. Play techno and he will shut off your page immediately. Use this function smartly and you can be sure that your conversions will skyrocket. check Convert your video to FIVE different formats (AVI, MOV, FLV etc) - If you want to publish your video in other formats than the usual YouTube format, feel free to do so. You can export your video in various formats including AVI, MOV, FLV, MP4, and many more... check + Much Much more...
