

Mp3 Agua Calientes - Clackson

[DOWNLOAD HERE](#)

Ten years in the making: the first full-length album by Italian pop/ska/funk modsters. 14 MP3 Songs POP: with Live-band Production, ROCK: Ska Details: Pop, Ska, Reggae, Funk, Soul, Black Music: these (and more) are the influences for this exciting Italian combo. Most of their material is original but in live performances they like to cover songs by Elvis Costello, The Creeps, Talking Heads (!) and others. After a demo release ("Gasp!") in 1995 and another in 1997 ("FlockHauS", circulating in more than 500 copies) they got signed to Toast Records and released the CD EP "Surfin'Ska". Later collaborated with Kutmusic first on the 2002 Paco Dj release "...Any Doubt Funk?" (for the track "Azulene 300") and then creating the new sublabel FlockHauS and releasing the singles "Fuori Controllo" (2003) and "Rumore" (2004). The last few days of 2006 see the release of "Clackson", 14 tracks of both new compositions and reworkings of previously released songs, in a new - exciting as usual - adventure into sonic madness!
