About Jimmy D Robinson Jimmy D Robinson, a native of West Palm Beach, FL, is a self-proclaimed "perpetual club kid" and is quickly being referred to these days, in certain circles, as the new music impresario on the block. With two Billboard and UK club hits already under his belt, Robinson's recent foray into the dance world has been a stroke of genius and luck for the poet, lyricist, musician, producer and entrepreneur. With over sixteen self-penned books of poetry to draw inspiration from, for other recording artists and genres of music, Jimmy D Robinson's star is just beginning to shine. Full of despair, destitute, and homeless, Jimmy D. Robinson began creating descriptive sentences in his mind and then penning them on scraps of paper or anything he could find. Much of the poetry in his books was written during these times. Gazing at the moon, the stars, the clouds, the sun, searching for anything that would give him hope--hope to live, to overcome, and to triumph. It can be said that poetry saved Mr. Robinson's life for when he began writing, he was overwhelmed with feelings that he hadn't experienced in a long time. Poetry made him reflect and look inward and gradually, he found the more he

wrote, the better he felt. It was never his intention to be a poet; he just did what came naturally. By publishing his books, Jimmy Robinson wants his readers to know that no matter what depths one can sink to, there is always a chance for change. Jimmy D Robinson ventured into the studio in 2007 and began setting his poetry to music. His debut full-length spoken-word CD was titled MIND JUICE. MIND JUICE is a timeless collection of Robinson's poems set to beautiful music. The inspirational and uplifting MIND JUICE CD was composed by Bruno Linares and narrated by James Randolph. MIND JUICE, currently distributed through Best Buy and other outlets, is the first book of Robinson's sixteen-book collection to be produced into a spoken-word musical CD. From the MIND JUICE CD sprang Robinson's first international chart hit "A Tiny Shoe." Setting lead track on MIND JUICE, "A Tiny Shoe," to dance music, was world-renowned producers DJ Tracy Young, Josh Harris, Bruno Linares, FC Nond, Rafael M, Twisted Dee and DJ Paulo. Each creating their own spin on "A Tiny Shoe" for dance floors, they broke through walls and consciousness with inventive production work pushing the track to #6 on the Billboard Club Play chart and #7 on the UK Music Week chart. Jimmy D Robinson's latest dance hit 'In the Night' featuring CEEVOX went to #4 on the Billboard
