The Surrealistic Soundtrack of our Crazy New World Order. A Contemporary, Timely, Genre-Bending Melodic Mix including electro-tech, worldbeat dance, jazzy, classical blends. A kick-ass instrumental that speaks volumes. 8 MP3 Songs ELECTRONIC: Pop Crossover, ELECTRONIC: Down Tempo Details: As a gifted, elusive indie artist as a human being, Lyric Jude continues to defy the 'genre' box. Though best known for her incredibly powerful soul-stirring vocals, she once again breaks out of the mold... comes back with something entirely new relevant to our times. Her new CD "Forever Changed" will forever change how we think about going through our daily lives. Lyric said this about her inspiration for 'Forever Changed': "Each of us has a defining moment in our lives on this planet. If you survive long enough, you may get more than one. For me millions of others, we had the extraordinarily rare experience of a shared defining moment. Each of us has been forever changed by the events that gave birth to this cd, our current world climate. This cd was the natural result of a deeply personal inner journey; a haunting realization that we now have more 'shared' moments in store for our human family, worldwide." As for her decision to make a non-vocal cd at this point in her career, Lyric said: "Forever Changed makes a bold statement without my ever having opened my mouth. This story has to be told... taken to heart. An artist has an obligation to her fans to herself...to tell her own truth about life to hope it's done in a way that her audience can relate to. All I can hope to do with 'Forever Changed' is touch you in such a way that you think about how fragile a thread it is that holds us all together. Isn't it time for all of us to start learning from these shared life experiences?" Well said, Lyric!
