Songs about life, love and relationships. 11 MP3 Songs COUNTRY: Country Pop, BLUES: Mellow Blues
Details: All of the songs on Bayou To Broadway are about people in life, love and relationships that I have known along my travels from the Bayous of Louisiana through the music cities along the Mississippi River and Great Lakes to the venues of New York City. I hope you find these songs creative, interesting and entertaining. As a member of the Baby Boomer generation I am endeavoring to create new music with the passion of the music that we experienced in our unforgettable years. Let us share those times again. Remember, keep a song in your heart because Everyone Needs A Song To Sing, by yours truly.
