Contemporary Gospel 15 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel  
Details: In 1969 we started playing music being inspired by our dad which played the blues and gospel. We started off singing R&B all of the Motown sounds. We loved the Beatles and the Temptations, Marvin Gaye, Sam Cooke, Smoky Robinson, The Jackson 5, and that's what songs we played, until 1998. As I was trying to write a love song, thinking about some young lady, the Lord God said to me, write a love song to Jesus whom know other love can top. And until this day which the Lord has made we have been strictly Gospel for we know Jesus us the only one that can save our souls May God Bless you all and Thank You for your support The Carson's Gospel Singers
