Wintermoon Ice, set on present-day Earth, features Tessa Kivelson, an archaeologist who unexpectedly acquires a mirror and a journal from her long-dead grandmother, Suvi Markku. This find thrusts Tessa into danger from alien creatures called Polydactyls, and she turns to her exasperating neighbor Jakob Faircrow for help. He is a capable defender (and later, lover) but she finds his smug arrogance infuriating. Jakob and Tessa must put aside their differences long enough to discover why Suvi hid the mirror and why the Polys want it. The journal provides vital clues to Suvi's past life in Severnessa with Jakob's twin brother Lut -- a life that will shortly intersect with Tessa's, when a magic gateway blends past and present, and brings the two women face to face with the creator of the Polydactyls. Wintermoon Ice is a spellbinding tale of twos: two cities, two times, two brothers and two women, who must save their world from an unspeakable terror.
