

Little Changes - Kristi Ph.d Marsh

Little Changes is a succulent swirling lollipop of lessons about the products we smother on our skin, foods we devour, and surroundings in which we immerse ourselves. A gut-wrenching roller coaster of emotions, her adventure involves a Western Grebe, farm stand spinach, a meaty love story, a rock in Wyoming, and some pioneers which eventually captured national attention. With a cup of humor, a smidgeon of sarcasm, and a wallop of mainstream motherhood, Little Changes enlightens readers about the simmering, swelling, epic transformation of our generation; becoming self-advocates for their own environmental health. Diagnosed with aggressive breast cancer at age thirty-six and with three young children at home, Kristi started on a quest to eliminate harmful chemicals from her life and environment. Now a proponent for environmental health, Kristi's passion is to share her knowledge and journey with others. So many people are reluctant to make changes in their lives because they think it's going to be expensive or time consuming. But making little changes over time in the products we smother on our skin, foods we devour, and surroundings we immerse ourselves, doesn't have to be difficult. Kristi's dynamic message empowers her audiences to choose wiser products with kinder, simpler ingredients, giving themselves the gift of the best life possible.
