Folk, rock, pop with an infusion of jazz blues and a little bit of psychedelia... in a highly expressive and deeply personal kind of way 11 MP3 Songs FOLK: like Joni, ROCK: Folk Rock Details: Recorded during live performances at Mast Cove Galleries, this collection of songs feature the exceptional musical talents of Kyle Esposito on bass and background vocals, Lesa Kraft on background vocals, Manuel Quintana on drums and percussion and special guest Jim Weider (of "The Band") on electric and slide guitar. "... music that sounds like Grace Slick wrestling with Eartha Kitt on original lyrics set to piano music influenced by Bach cantatas with the wrenching emotional intensity of Marianne Faithful... You gotta hear this lady... She has a high-angst-ridden vocal delivery with concise intonation. But it's the intensity and obvious sincerity that sucks you in, and by the second song, you're there for her... Anna has been compared to Tori Amos, Nora Jones, Victoria Williams and Joni Mitchell. Such journalistic liberties almost always telegraph the coming of a truly unique stylist" Don Wilcock, Music Journalist, The Record, Troy, NY 3/24/05
