Children of Production is an innovative derivative of Parliament/Funkadelic, homegrown from "The DNA of HIP-HOP, FUNK" 15 MP3 Songs HIP HOP/RAP: Hip Hop, URBAN/R&B: Funk Details: This musical compound sneakin' out from the labs of Dr. Funkenstein hale from all over the U.S. and from various strong and diverse musical backgrounds. C.O.P. has cultivated a sound that blends many musical genres much like the undiluted fusion of funk. Thru a foundation of hip-hop, the C.O. P. audience will always experience (atleast a taste of) jazz, blues, world, rock, gospel, classical, and funk. C.O.P. can also be found supplying the musical backbone for Divadelick, headed up by Sativa Diva and Kendra Foster, a group with similar sonic dimensions. C.O.P. was born out of the countless late night recording sessions simulated in hotel rooms while its (now) members were touring the world with Parliament/Funkadelic. Children of Production are musical revolutionaries dedicated to producing quality, good music--whether profound or commercial--that's relatable to all mankind, attempting to increasingly make a difference even if as small as the listener's mood.
