Acoustic, Folk Rock, Storytelling, Very melodic, 60's sound. 15 MP3 Songs FOLK: Modern Folk, POP: 60's Pop Details: Denny Carleton is a talented acoustic singer songwriter who always gives you something to think about. On his new CD Whiskey Island Denny's music is acoustic based with light percussion and very melodic. The topics of the songs range from The Coney Island Blues which talks about the people in the side shows at Coney Island, having their homes destroyed so a Macdonalds can be built, To a love song called My Environmental Girlfriend. Denny's lyrics are a combination of allegories, parables, and wacked out tunes about big mouth fish who crowd into a dam and pile on top of each other to get stale bread from tourists. All of this weaved around nice beatle type melodies, and excellent guitar playing.
