Think hardcore. Think emo. Think Worldbeat. Think pop. Now throw them all away and start from scratch with no pre-conceived notion of how it all should end. The result is an amazing blend of driving melodic rock and rhythms that leave the listener in a st 9 MP3 Songs METAL: Alternative Metal, ROCK: Progressive Rock Details: Far From Us make their living by defying labels. Their unique approach to music may be hard to classify, but it's easy to enjoy. Just ask the countless number of fans that the band has earned throughout the southeast. Think hardcore. Think emo. Think Worldbeat. Think pop. Now throw them all away and start from scratch with no pre-conceived notion of how it all should end. The result is an amazing blend of driving melodic rock and rhythms that leave the listener in a state of exhausted bliss. In a world dominated by rock radio's disgustingly un-original bands, Far From Us is a refreshing change to the norm. Proving that not everyone has forgotten that guitar riffs and artistic songwriting can co-exist in perfect harmony, Far From Us take us to the place where hard music should have gone. Many bands like to deny their labels.that says a lot for a band that tries so desperately to find their label in today's music scene and simply can't. Mixing styles and painting broad musical landscapes, Far From Us takes us to a place where we've never been. To the rest of us the music of Far From Us seems almost foreign, and maybe that is the best label of all.
