The Peeps Go Pro Deliver 14 Well-Polished Bits Of Pop Songcraft. Pink Lovely Sounds. 14 MP3 Songs

POP: Quirky, ROCK: Math Rock Details: Ghost Peeps 1st big studio effort. Filled with witty lyrics hook-laden pop noises, "Jesus Porky" is their most accomplished album to date. All 14 songs borrow from pretty much the entire musical history of the 20th century and whether it be the killer pop songs "I'm Calling It Art", "Femme Fatal", the jazz creepiness of "Don't Touch Me There", the hip hop opener "Ghost Peeps Theme", the Swahili inspired Talking Heads Meets Santana (to talk about The Beatles) "Jung's Quote", the glam rocker "Eggplant Man", or the country western waltz "A Gunslinger's Woe", it all sounds like the work of a cohesive intelligent band, or in this case the two man songwriting team of Wright/Gargiulo backed with pro session musicians. While Ghost Peeps doesn't back away from it's trademark sense of humor, songs like "Images" and "Ghetto Chateau" shows a more serious, almost introspective side, that gives the album some weight. After the fairly simple punky "Peep For Sale", it'd be easy to write Ghost Peeps off as some kinda talented goof band but "Jesus Porky", with it's occasional very complex song structures matched with it's songs about third grade strongmen, clothing store employees, eggplant men, and everything else, shows Ghost Peeps as an extremely talented band with no signs of stopping in pushing to the musical forefront. Viva la Ghost Peeps!! Album comes in a limited edition numbered black paper sleeve, featuring original Ghost Peep artwork, lyrics sheet, and Ghost Peeps pin!
