Scrooge, Cratchit, all the ghosts, and everyone else are played by one guy in this energetic reading of the classic tale of redemption. 13 MP3 Songs SPOKEN WORD: Audiobook, SPOKEN WORD: Radio Drama

Details: My edited version of A Christmas Carol was supposed to be a one-time dramatic reading at a library podium, an offshoot of my childrens storytelling. Instead, it was the beginning of a whole lot of adult and family storytelling, with the Dickens classic at the center: Ive been performing the Carol for more than 10 Christmases now, and its grown into a fully-memorized one-man show, with blocking, props, and lighting and sound cues. Its great fun trying to play all the Cratchits sitting around the table, or all the guests at the nephews party, or be both sides of the conversation between Scrooge and each of the spirits. This CD was recorded in studio in 2003, when I was preparing for the first theatrical production. It uses all the music and sound effects of the stage show, and we did some things that I cant do on stage, too like overlapping my characters voices in spots, and using effects on each of the ghosts voices. Ive always loved this story. It is different every time its told, or filmed, but the heart is always the same. Its a wonderful message for the holiday season, or anytime . . . and its been a pleasure to add my own twists, my performance of my favorites of Dickens scenes, to the great sea of variations on a theme that are out there. Enjoy! \*\*\*Storyteller Grant Fitch has entertained all ages with children's fables, folk tales, scary stories, and classic literature.
